INDEPENDENT AUDITOR'S REPORT ON THE INTERNAL CONTROL STRUCTURE (REPORTABLE CONDITIONS WERE NOT NOTED)

To the Board of Directors International Correspondent Trading, Inc. 525 Washington Blvd. Jersey City, New Jersey 07301

We have audited the financial statements of International Correspondent Trading, Inc. (the "Company") for the year ended December 31, 2007, and have issued our report thereon dated January 23, 2008.

In planning and performing our audit for the year ended December 31, 2007, we considered the Company's internal control, including control activities for safeguarding securities in order to determine our auditing procedures for the purpose of expressing our opinion on the Company's basic financial statements and not to provide assurance on internal control structure.

Also, as required by rule 17-a 5(g)(1) of the Securities and Exchange Commission (SEC), we have made a study of the practices and procedures followed by the Company including tests of such practices and procedures that we considered relevant to the objectives stated in rule 17a-5(g) in making the periodic computations of aggregate indebtedness (or aggregate debits) and net capital under rule 17a-3(a)(11) and for determining compliance with the exemptive provisions of rule 15c3-3. Because the Company does not carry securities accounts for customers or perform custodial functions relating to customer securities, we did not review the practices and procedures followed by the Company in any of the following:

- 1. Making quarterly securities examinations, counts, verifications, and comparisons
- 2. Recordation of differences required by rule 17a-13
- 3. Complying with the requirements for prompt payment for securities under Section 8 of Federal Reserve Regulation T of the Board of Governors of the Federal Reserve System

The management of the company is responsible for establishing and maintaining internal control and the practices and procedures referred to in the preceding paragraph. In fulfilling this responsibility, estimates and judgments by management are required to assess the expected benefits and related costs of internal control policies and procedures. The objectives of an internal control structure are to provide management with reasonable, but not absolute, assurance that assets are safeguarded against loss from unauthorized use or disposition and that transactions are executed in accordance with management's authorization and recorded properly to permit the preparation of financial statements in accordance with generally accepted accounting principles. Because of inherent limitations in any internal control structure, errors, irregularities or instances of noncompliance may nevertheless occur and not be detected.

Our consideration of the internal control structure would not necessarily disclose all matters in the internal control structure that might be reportable conditions and, accordingly, would not necessarily disclose all reportable conditions that are also considered to be material weaknesses as defined above. Pursuant to our study, we did not find any weakness involving internal control that we considered to be a material weakness.

We understand that practices and procedures that accomplish the objectives referred to in the second paragraph of this report are considered by the SEC to be adequate for its purposes in accordance with the Securities Exchange Act of 1934 and related regulations, and that practices and procedures that do not accomplish such objectives in all material respects indicate a material inadequacy for such purposes. Based on this understanding and on our study, we believe that the Company's practices and procedures were adequate at December 31, 2007, to meet the SEC's objectives.

This report is intended for the Board of Directors, Management and the FINRA, and other regulatory agencies as may be required, and is not intended to be and should not be used by anyone other than these specific parties.
